

NANO-CRYSTAL GLASS PROTECTION KIT

The Apex Auto Shield Nano-Crystal Glass Protection Kit is a professional windshield and window treatment system designed for dealerships and detailing specialists.

Treating up to **12 vehicles**, it creates an ultra-smooth, water-repellent coating on automotive glass that improves wet-weather visibility, reduces contamination buildup, and simplifies cleaning — ideal for pre-delivery preparation and premium protection packages.

KEY HIGHLIGHTS

- Professional glass protection system for windscreens and windows
- Treats up to 12 vehicles per kit
- Creates a durable hydrophobic coating for improved visibility in rain
- Reduces water spotting, road film, and contamination adhesion
- Enhances driving safety in wet conditions
- Complete application system included
- Customer care kits provided for ongoing performance
- Ideal add-on to full vehicle protection packages
